Top 8 Things You Need To Know...

01 Gemini Omni Model

Gemini Omni, our new model that can create anything from any input, is built to make creating media as easy as having a conversation. Turn any combination of text, photos and video clips into high-quality video outputs with Gemini Omni. Gemini Omni Flash is first launching with video outputs in Gemini app, Flow & YouTube.

03 New AI Search Box Search

Introducing the **biggest upgrade to our Search box** in over 25 years — now completely reimagined with AI. It's more intelligent and intuitive than ever, dynamically expanding to let you search by dropping text, images, files, videos or even Chrome tabs to ask exactly what's on your mind.

04 Intelligent Eyewear AI

Intelligent eyewear is coming, starting with audio glasses this fall. Powered by Android XR, these glasses are designed to give you all day help from Gemini Spark in your ear privately. They let you stay hands-free and heads-up, for things like listening to music, taking photos, making calls, or tapping into your phone apps without reaching into your pocket.

05 Daily Brief Gemini app

Daily Brief is our newest out-of-the-box agent that's designed to be your first stop every morning. By distilling your digital clutter into one intelligent, easy-to-read view, Daily Brief surfaces your top priorities and suggests immediate next steps, kicking off your morning with a smooth, actionable plan.

08 Google Antigravity 2.0 AI

We introduced **Google Antigravity 2.0**, a new, standalone desktop application that acts as a central home for agent interaction. You can orchestrate multiple agents to execute tasks in parallel, such as having one agent code a website while another generates brand assets.
